Energy (ME)	350kcal	
All the essential vitamins and minerals that your dog needs to be healthy and happy		

Food for Dogs Adult Chicken Recipe has been formulated by our qualified dog nutritionists to meet the nutritional levels established by the Association of American Feed Control Officials (AAFCO) for the Dog Food Nutrient Profile for the maintenance of adult dogs.

What is in it

Chicken Meal, Barley, Legumes, Poultry Oil (preserved with Natural Anti-Oxidant), Vitamin and Mineral Premix, Functional Fibres (Beet Pulp, Inulin from Chicccory), TruMune™ (Yeast Metabolites from *Saccharomyces cerevisiae*), Yucca Extract.

How much to feed your dog

The amount that your dog needs to eat is dependent on its breed, age, weight, level of activity and overall general health. The following table is provided as a guide to help you determine the right feeding regime for your dog. Adjust as necessary and consult your veterinarian if you have any questions on the appropriate amount to keep your pet in optimum health.

SIZE OF DOG	TYPICAL WEIGHT RANGE	CUPS PER DAY*
Small	5 - 10kg	½ - 1 cup
Medium	10 - 20kg	1 - 1 ½ cups
Large	20 -35kg	1 ½ - 2 ½ cups

* 1 metric cup is approximately 130g

Transition Guide

When introducing your dog to a new food with its different tastes, textures and ingredients, we recommend that you transition them onto it over a course of a week.

Ensure that your dog has access to fresh clean water at all times.

We welcome your feedback on Food For Dogs and are happy to answer your questions.
